

EVEREST
CIVIL

PLANT HIRE CAPABILITY STATEMENT

COMPANY OVERVIEW

Everest Civil are a Queensland-based plant hire company offering the best equipment and operators. We specialise in bulk and detailed earthworks, road construction, land development and mine services.

Everest Civil are proud to bring delivery excellence, cutting-edge technology, and a commitment to upholding the highest quality and safety standards. We service clients across many sectors including government, mine services, defence, land development, remote area construction, and renewable energy and rail projects.

We offer skilled, passionate, director-led teams. We bring the best plant, equipment, and operators to successfully deliver your project. We also have the capacity to supply highly experienced site supervisors as required.

At Everest Civil, we challenge what's possible. We invest in the highest quality plant that is equipped with cutting-edge technology to maximise value and efficiencies. Our ability to deliver on time and on budget is proven by our track record, reputation and ongoing client relationships.

CAPABILITIES

Delivery excellence & cutting-edge technology

Everest Civil brings proven experience and demonstrated expertise in plant hire services. We are equipped and staffed to mobilise and complete projects of any size and complexity in a timely, cost-effective manner. Our capabilities span large-scale inner-city civil engineering projects through to remote works and we operate in any Australia-based location.

Everest Civil not only bring skilled plant operators, but we can also supply highly experienced site supervisors as required. Working with us will ensure your project operates at a high-performance level and complies with the ultimate quality and safety standards.

OUR EXPERIENCE AND EXPERTISE

Committed teams

Company Director and Construction Manager, Andy Cameron brings over 22 years of experience, specialising in all areas of the civil construction industry. At Everest Civil he invests in high quality plant, equipped with the latest technology and an experienced team of operators and site supervisors.

Andy believes that one of the biggest challenges for the construction industry is finding the right people for the job. As a people focused and

solutions-oriented leader, he motivates teams to support enjoyable, fulfilling, and productive work environments.

Everest Civil are committed to upholding ethical business practices and have an impeccable record of honesty, integrity and fair dealing. We strive to make a positive impact and contribution for our team, clients and extended community.

Our work is guided by these values

Respect

We treat everyone with dignity and respect.

Pride

We take pride in delivering services of the highest quality.

People focus

We prioritise a culture of community and belonging.

Trust

We build trust in every relationship through reliability, ability and honesty.

Capability

We have the capacity and expertise to solve complex construction problems.

Safety

We are committed to the highest safety standards in all that we do.

Safety and environment

Everest Civil are committed to upholding the highest safety standards and maintaining a safe and healthy work environment for all employees. We recognise the importance of integrating environmental management into all that we do. We work closely with our clients to minimise waste and identify energy-efficient solutions.

Everest Civil are equipped and staffed to mobilise and complete your civil construction project in a timely, cost-effective manner.
