

COMPANY OVERVIEW

Everest Civil is a Queensland-based civil construction and plant hire company with over 20 years of experience in the industry. With a founder and director experienced in delivering high-quality developments across Australia, we prioritise timely project completion without compromising excellence.

At Everest Civil, we understand the importance of adhering to project schedules, and we take great pride in consistently meeting agreed deadlines for our valued clients.

Our end-to-end construction capabilities ensure seamless project execution, with the majority of work performed by our highly skilled in-house team.

We challenge what's possible in the construction industry and thrive on solving complex problems to provide safe and efficient project delivery across diverse sectors including government, mine services, defence, and renewable energy.

Everest Civil brings cutting-edge technology, dedicated teams, and a commitment to upholding the highest standards of quality and safety to every project. Our ability to deliver quickly, efficiently and in a cost-effective manner is proven by our established relationships, track record and reputation.

CAPABILITIES

Delivering excellence & cutting-edge technology

Everest Civil brings proven experience and demonstrated expertise in civil construction and plant hire services. We are equipped and staffed to mobilise and complete projects of any size and complexity in a timely, cost-effective manner.

Our team of project managers, site supervisors and plant operators have the capability to deliver complex civil construction projects to the highest quality and safety standards.

Our work spans large-scale inner-city civil engineering projects through to remote works. We have the capability to mobilise for works in metropolitan and remote areas, with the ability to resource any civil construction project in any location across Australia.

EXPERIENCE & EXPERTISE

Andy is a highly respected Company Director and Construction Manager who brings over 22 years of experience, specializing in all aspects of civil construction. With a track record of successfully delivering projects ranging from \$50,000 to \$35,000,000 across Australia, his diverse knowledge adds value to any project.

Over the past two decades, Andy has developed long-standing relationships with Government organisations, local councils and developers. During this period Andy has successfully delivering multiple high-profile project nationwide.

His efficiency in running cost-effective projects is shown by his innovative solutions, keeping projects on time and within budget. Andy believes the construction industry's biggest challenge is finding the right people for the job.

As a people-focused leader, he fosters enjoyable, fulfilling, and productive work environments.

At Everest Civil, we prioritise ethical business practices, maintaining an impeccable record of honesty, integrity, and fair dealing.

Our comprehensive range of services includes site clearing, bulk earthworks, detailed earthworks, sewer, stormwater, potable and recycled water, electrical and communication installation and commissioning, all associated concrete works including kerbing, institute stormwater structures, road pavement construction, and asphalt and spray seal placement.

We're dedicated to making a positive impact for our team, clients, and extended community.

Our work is guided by these values

Respect

We treat everyone with dignity and respect.

Pride

We take pride in delivering services of the highest quality.

People focus

We prioritise a culture of community and belonging.

Trust

We build trust in every relationship through reliability, ability and honesty.

Capability

We have the capacity and expertise to solve complex construction problems.

Safety

We are committed to the highest safety standards in all that we do.

SAFETY & ENVIRONMENT

Everest Civil are committed to upholding the highest safety standards and maintaining a safe and healthy work environment for all employees, subcontractors, visitors, and other stakeholders. We recognise the importance of integrating environmental management into all that we do. We work closely with clients to minimise waste and identify energy-efficient solutions. As part of this, a key focus is on raising awareness and educating our teams on pollution prevention and risk management.

Everest Civil are equipped and staffed to mobilise and complete your civil construction project in a timely, cost-effective manner.
